KIEWIT-MORTENSON JOINT VENTURE SIGNED TO OFFER CONSTRUCTION MANAGEMENT SERVICES FOR HONOLULU SEAWATER AIR CONDITIONING

Honolulu, HI – Honolulu Seawater Air Conditioning LLC today announces that Kiewit and Mortenson have formed a joint venture (Kiewit-Mortenson) to provide Honolulu Seawater Air Conditioning with construction management services. .

As one of US' largest and most respected construction organizations, **Kiewit** has delivered world-class solutions to projects of every size, in every market. Synonymous with superior quality, building it safely, on time, on budget and with no surprises, Honolulu Seawater Air Conditioning is excited to team up with a company that is innovative and hard working.

Delivering world-class solutions to project of every size, Kiewit consistently ranks as one of the top 10 contractors by *Engineering News-Record*. Ben Prock, Area Manager, says, "The Kiewit-Mortenson team is thrilled to be part of this very exciting project and look forward to taking a part in reducing Hawaii's dependency on fossil fuels in the years to come."

Kiewit has extensive experience building various structures in Hawaii, ranging from state-of-the art shopping arenas, medical facilities, small warehouses to multi-million dollar luxury high-rise condominium hotels. Throughout their 50 years in Hawaii, Kiewit has built notable projects such as Department of Hawaiian Home Lands' Kapolei Office, Army Tripler Medical Hospital, portions of the Honolulu International Airport, Pacific Aviation Museum, Island Pacific Academy, Maui Marketplace and Lahaina Gateway.

Mortenson is one of the nation's leading builders ranked 22nd in the country and the nation's 11th largest green contractor. The company credits its mix of projects that include complex, high profile projects in renewable energy, healthcare and military facilities for its growth in revenue. The company currently employs more than 2,200 people nationwide with many teams focused on renewable energy projects. Since entering the renewable energy market in 1995, Mortenson has been involved in more than 80 wind power projects across the US and Canada totaling more than 8,000 megawatts of power. Mortenson is also familiar with the islands, having constructed 80 projects in Hawaii over the past 30 years, including the Tripler Army Medical Center, Kaheawa Wind Farm and the Hawaii State Theatre renovation.

Honolulu Seawater Air Conditioning – 2

Honolulu Seawater Air Conditioning is pleased to be working with two of the nation's leaders for construction of large and renewable energy projects.

Honolulu Seawater Air Conditioning, LLC, is a privately owned company currently developing a seawater air conditioning system for Honolulu. Deep ocean water will be used to deliver renewable cooling to commercial and residential properties in the downtown Honolulu area. The project is scheduled to commence construction in 2011 and to begin providing chilled water services to customers in 2013. For more information, visit www.honoluluswac.com, or contact the headquarters at (808) 531.SWAC (7922).
